***Priority***

1. Receipt is acknowledged of a certified copy of the Taiwan 90207841 application referred to in the oath or declaration or in an application data sheet. If this copy is being filed to obtain the benefits of the foreign filing date under 35 U.S.C. 119(a)-(d), applicant should also file a claim for such priority as required by 35 U.S.C. 119(b). If the application being examined is an original application filed under 35 U.S.C. 111(a) (other than a design application) on or after November 29, 2000, the claim for priority must be presented during the pendency of the application, and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior foreign application. See 37 CFR 1.55(a)(1)(i). If the application being examined has entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the claim for priority must be made during the pendency of the application and within the time limit set forth in the PCT and Regulations of the PCT. See 37 CFR 1.55(a)(1)(ii). Any claim for priority under 35 U.S.C. 119(a)-(d) or (f) or 365(a) or (b) not presented within the time period set forth in 37 CFR 1.55(a)(1) is considered to have been waived. If a claim for

Art Unit: 2872

foreign priority is presented after the time period set forth in 37 CFR 1.55(a)(1), the claim may be accepted if the claim properly identifies the prior foreign application and is accompanied by a grantable petition to accept an unintentionally delayed claim for priority. See 37 CFR 1.55(c).

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 11-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrases "a first reflection mirror" and "a second reflection mirror" are recited in claim 1 and then also recited in claims 11-15. It is not clear the second recited phrases are referring to the phrases in claim 1 or further adding the limitations. Applicant is requested to clarify these phrases clearly.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 8-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Steinle et al.

Steinle et al discloses a scanning device (Fig. 2) comprising:

at least one light source (180 and 184) for illuminating a document (208 and column 4, lines 65-67);

a light folding device having a first reflection mirror (212) and a second reflection mirror (214) that faces the first reflection mirror and the information being reflected between the first and second reflection mirrors (see 242);

a final reflection mirror unit (216 and 162 of Fig. 3) including at least one reflection mirror for receiving and reflecting image information from the folding device (see Fig. 2);

a lens unit located in the path of light of the image information reflected from the final reflection mirror unit (164, 165);

an optical sensor (column 5, line 20); and at least one driving device for driving the final reflection mirror unit (302). The final reflection mirror unit is a rotatable and movable reflection mirror (see column 6, lines 15-20). The final reflection mirror unit has a first mirror (216) and a second mirror (162).

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 2-7, 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Steinle et al in view of Suzuki.

Steinle et al discloses the claimed invention as set forth above except that at least one of the first and second reflection mirrors are rotatable or movable **or** the light folding device and the light source are moved simultaneously. Suzuki discloses the copying machine that teaches at least one of the first and second reflection mirrors are rotatable or movable **or**

Art Unit: 2872

the light folding device and the light source are moved simultaneously (see abstract and column 2, lines 14-20). It would have been obvious to one of ordinary skill in the art to adapt the teaching of the Suzuki for the purpose of maintaining the optical path when miniaturizing the scanning device (column 2, lines 4-20).

### **Conclusion**

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EUNCHA P. CHERRY whose telephone number is 703-305-0997. The examiner can normally be reached on M-F 6:30-4:00, alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, CASSANDRA SPYROU can be reached on 703-308-1687.
